

Venomous Reptile Ecology

51st
JAM

Awareness and Safe Handling Workshop

51st
JAM

Dr. Erika Nowak (NAU, USGS, AZTWS)

Morning Session: 0830 – 1130 (20 person cap;)

Afternoon Session: 1230 – 1530 (20 person cap)

3500 S Lake Mary Rd, Flagstaff, AZ 86001 (AGFD Office)

\$40 for Professionals / \$25 for Students

Dr. Nowak has been studying venomous reptiles for over 20 years, mainly in Arizona national parks, and will provide a training based on her research for resource managers, rangers, wildlife managers, law enforcement personnel, field biologists, students, and others who may be called on to quickly remove a venomous reptile from a dangerous situation. This presentation and hands-on learning opportunity are intended to help participants understand snake behavior and ecology, and also learn how to safely handle venomous reptiles in a controlled, carefully supervised environment.
